

There is no such thing as a grown-up. Just growING-ups and stuck people.

Which one are you?

"You've achieved real growth the day you have your first real laugh—at yourself."
—Ethel Barrymore

How old are you when you finally truly know everything? Correct answer: never! We're never done learning. So why do we expect perfection from everyone else? Worse, why do we expect it from ourselves?!

The moment we surrender to the fact that we are humans – nothing less, nothing more – we're more gentle on failures, weaknesses, foul-ups, and mistakes. Both our own and others'. Imagine how much less time we'd spend on cover-ups, blamestorming, dishonesty, and pride. Imagine how much more learning, support, fun and encouragement there would be. That's the foundation of an Innovation Team. To be a great team member, choose to be a growING up. It might be your fountain of youth!

Act Like A GrowING Up!

Training people to innovate for growth
Facilitating effective meetings
New product concepts and strategic planning
Organizational development to foster innovation

"Good people are good because they've come to wisdom through failure. We get very little wisdom from success, you know."
—Ethel Barrymore
